SCENIC RIVERS ENERGY COOPERATIVE

Policy S.13

Non-Standard Service Policy: Neutral Isolation

RESPONSIBILITY: CEO

SREC provides electric energy and service to its members having as a standard that the neutrals of the Cooperative's primary distribution system and the member's service shall be physically bonded together with an electrical conductor (wire). This neutral interconnection may be deemed undesirable by the member.

At the member's request and at the Cooperative's discretion, the Cooperative will install and maintain a device suitable to the Cooperative to provide for the isolation of neutrals between the primary and secondary systems.

Availability

At the Cooperative's discretion, this non-standard service is available to a member who takes service from the Cooperative under any of its published rate schedules and who desires to isolate under normal operations the primary distribution system neutral from the secondary system neutral of the member's service. The member must sign an application for non-standard service to receive such service.

Type of Service

Neutral isolators will be available for all approved secondary voltages. The device shall be inspected annually by the Cooperative. The member will be required to pay an installation fee, which shall be reviewed and adjusted periodically.

Member's Cost

The monthly charge for a neutral isolation device shall be \$35.00.
