## SCENIC RIVERS ENERGY COOPERATIVE

### Policy S.21 Off-Peak Low Temperature Grain Drying

#### **Responsibility: CEO and Employees**

Electric service will only be available during off-peak hours and shall be controlled with a load management radio receiver.

The member will be required to install equipment to disconnect load and meter separately from other service using either sub metering or direct metering.

Separate rates will be established for off-peak electric low temperature or air dry grain drying systems. Rates will be available both for separate services and existing services adding additional metering.

This policy supersedes and cancels all similar policies prior to this date.
