## SCENIC RIVERS ENERGY COOPERATIVE

### Policy S.22

### Electric Plug-in Hybrid or Full Electric Automobiles

**RESPONSIBILITY:** CEO and Employees

The automobile shall have the flexibility to charge during off peak times. Off peak times can and will be adjusted by the Cooperative as needed. The automobile's electric charging circuit shall be controlled in order to qualify for the reduced electric rates offered by the Cooperative.

**REQUIREMENTS:**

1. The electric automobile shall be designed to be connected to standard 120/240 volt service.
2. All wiring shall meet all State and National Electric and Safety Codes.
3. All applicable service rules and connect/disconnect fees will apply.
4. Required metering can be provided by either a direct meter or a sub deduct meter from an existing service.
5. The member is responsible for providing necessary wiring and the meter socket.
6. Electric service will be interrupted by a radio receiver, load control device, or another automatic means determined by the Cooperative.
7. Electric service will only be available during hours specified by the Cooperative, which hours may be adjusted from time to time.
8. Only approved equipment and or devices will be allowed on this interruptible service.
9. The member is responsible for any electrical wiring required for the installation of the control equipment.
10. The Cooperative will not be liable for any damages that may occur because of control interruptions, member equipment failures, or insufficient charging during peak times.

This policy supersedes and cancels all similar policies prior to this date.
